Motivation

I am self motivated, consistent, and have the ability to think positively and adjust myself to any working environment

Personal Skills

- Analyze the problem in multiple ways
- Finds out better solution
- Calm and stress less
- Keeps going until the solution is found

Web development libraries and tools

React Java Script

React native HTML/CSS

Express js Nodejs

Knex Postman

Navigo(VanillaJS router)

REST API Storybook

Git and GitHub

webpack swagger

Technical skills

Programming

- Basic C
- PL/SQL
- LEX/YACC (compilers)
- LINUX Shell Script
- AWK scripting (Data extraction and reporting tool)

Databases

- MySql
- MongoDB

Other technologies

- Office Tools
- TEX (document editor)

EXPERIENCE

Nov 2020 - Jan 2021 **Final Project | Web-dev-rooms** 📍 Hack Your Feature, Copenhagen

- The project is about managing study groups for students within the organization.
- Technologies used- React, Storybook, Swagger, Knex, MySQL,Webpack, REST API.
- A group of 12 students worked collaboratively using GitHub.
- I have designed reusable components, created pages, configured endpoints, defined Webpack for building the project, deployed the project on Heroku.
- I have written seeds needed for database migrations

September 2020 **Mini Project | Meal Share Website** 📍 Hack Your Feature, Copenhagen

- The website is to share meals for sellers and reserve meals for customers.
- Technologies used- HTML/CSS, Java Script, MySQL, Node.js, knex, Navigo, REST API
- Designed all the web pages using HTML/CSS and Java script
- Navigation between the web pages is determined using Navigo(vanillaJS router)
- Implemented back end using *NodeJs, and ExpressJS*
- Connected back end to database using *knexJS*
- Data is made available as API

Jan 2016 - now **Production | Warehouse** 📍 Nemlig.com, Brøndby, Copenhagen

- Worked as Packer in the production-pakning(TØR)
- Working as stock employee in the production-lager(TØR)

Jan 2011 - Oct 2015 **Programmer | University** 📍 JNT University, Hyderabad, India

- Trained students in LINUX shell and C programming
- Presented lectures on topics like Principles of programming languages, Database Management Systems, and Compiler design

EDUCATION

March 2020 - Jan 2021 **Full Stack Web Development Course**
📍 Hack Your Future, Copenhagen, Denmark

2009 - 2011 **Post Graduation M.Tech-Software Engineering**
📍 School of Information Technology,JNTU,Hyderabad,India

2002 - 2006 **Under Graduation B.Tech-Computer Science and Engineering**
📍 Jawaharlal Nehru Technological University,Hyderabad,India
