Residence permit with right to work

LinkedIn: [linkedin.com/in/olha-afanasieva/](https://linkedin.com/in/olha-afanasieva/)

## PROFILE

Enthusiastic and highly motivated front-end developer with experience in creating websites supporting different browsers and mobile devices. Implementation of responsive design, writing code from scratch and trying to develop the best possible web-solutions. I also have a keen eye on new technologies and include them into my projects.

## EXPERIENCE

Jan 2020 – now, Front-end Developer Internship at Whyser.

Developing a single-page application - platform for creating powerful and engaging strategies. Delivering design based on UI theme, implementing functionality using Vue.js.

Aug 2019 – Dec 2019, Front-end Developer Internship at CareerToGo.

Developing a single-page application – career app, using Vue.js and Vuetify. Extending web-application to desktop version, implementing new design.

2012 – 2018, accompanying spouse.

Relocating to different countries (Poland, Denmark), learning different cultures and languages. Taking care of my family. Keeping up to date with new technologies in software development.

July 2010 – Sep 2011, content manager, IT-tour (tour search and booking system), Kharkiv, Ukraine.

Maintaining a high volume of data. Monitoring the company's crawlers, identification of system errors. Systematization of information and its reduction to a single form.

## EDUCATION

---

Aug 2019 – Jan 2020, student in Hack Your Future - full-stack software developer, Copenhagen, Denmark.

Learning HTML, CSS, JavaScript, MySQL, NodeJS, React along with completing and solving different projects each week of the course.

2009 – 2010, Master's degree in computer engineering. Engineer-researcher of computer systems and networks. Kharkiv National University of Radioelectronics, Kharkiv, Ukraine.

Master thesis project: Methods of developing a web interface for building corporate informational systems.

2005 – 2009, Bachelor's degree in computer engineering. Kharkiv National University of Radioelectronics, Kharkiv, Ukraine.

## VOLUNTEER EXPERIENCE

---

Feb 2019 – now, support mentor in HYF - Supporting students by reviewing their homework, giving feedback.

Nov 2019, GOTO Copenhagen - Provided physical and logistical support to presenters and event attendees. Had an opportunity to learn from group of the brightest minds in tech and business about China's techno-strategic ambitions, introduction to Quantum Computing, advices from Apple Cofounder, how to use HTML properly to make sites that work better, faster and include more people.
