

# Sowmya Mannem

## Front end Developer

Motivated, passionate developer. I began to be fascinated by web programming eg developing apps, building websites. That's when I joined Hackyourfuture (coding bootcamp), to learn and get practical knowledge with javascript programming language .I am frontend developer with fullstack skills. I am keen to build great career in this field. In return, I would offer my full commitment and be a pleasant and friendly addition to the team.

## WORK EXPERIENCE

### Odeno A/S

#### Fullstack developer Internship

05/2020 - 07/2020

Copenhagen, Denmark

##### Responsibilities & Achievements

- Set up a task manager on Github and automate the flow of handling issues and PR's and understand CI/CD with basic github actions.
- Worked with Javascript as frontend and Nodejs as backend.
- Worked with webhooks, nodemailer and built functionality to perform its own tasks.

## EDUCATION

### Full stack / Web development program

#### HackYourFuture / Copenhagen

08/2019 - 04/2020

Copenhagen, Denmark

##### Front-End technologies & Back-End technologies

##### Achievements / Tasks

- Learning and developing practical knowledge while working with each technology.
- Understanding different concepts on Advanced javascript and its framework and on Nodejs backend and connection to MySQL Database.
- PROJECT IN COLLABORATION WITH SEASONY: Seasony is a startup specializing in vertical farming with robotics.
- Working together as a team of 15, building dashboard web application.
- Assist others with project setup and also in deployments in to Heroku.
- I also volunteer now at HYF, as an assistant mentor for Javascript.

### Bachelor's in Pharmacy

#### JNTU University

10/2007 - 04/2011

## PERSONAL PROJECTS

#### Meal sharing website- Fullstack web application (01/2020 - 01/2020)

- The website has three main features: - Fetch the data and show the small details along with reviews using stars for the specific meal and backend with form and validations and Deploy to Heroku

#### React-QuizApp (07/2020 - 07/2020)

- Worked with React, Typescript and Styled components.
- It is a QuizApp build with an open source API, which gives random questions and UI is built to indicate correct or wrong answers and to show scores.
